

PHOTO CONSENT

Date: _____

Name: _____

Before and after photographs are important proofs as to the success of your operation. Doctors Hall and Wrye do not use these photographs for any purpose unless they have your permission. However, many patients who are considering cosmetic surgery find looking at before and after photographs very useful. For this reason, we would like to have your permission to use these photographs for patient education. Occasionally, Doctors Hall and Wrye use them for lecture or talks on plastic surgery. At other times they may use them for marketing or advertising. In either case, they will only use them if you have given them permission. Doctors Hall and Wrye fully realize the sensitive nature of this matter and will keep your identity completely protected at all times.

By signing this page I allow Hall and Wrye Plastic Surgeons to utilize my photographs for educational purposes, I may be asked to speak with patients who are considering plastic and reconstructive surgery, and/ or I allow my photographs to be used for marketing and/ or advertising.

I have read the above statement and allow Hall and Wrye Plastic Surgeons to use my before and after photographs for the purpose indicated above.
